

LET ELITE TRANSFORM YOUR PROPERTY INTO A SUMMER PARADISE!

Summer Pleasures

Imagine coming home to a private paradise — a world of exotic greenery and the colors of the rainbow; the glistening of a poolside Oriental stone fountain; or, voluptuously curving decks perched high above the verdant greenery of wood's edge. This can be yours.

Elite Landscaping has emerged as a regional leader in the creation of outstanding landscape design. A seasoned staff of well-educated professionals approach your property with fresh imagination and finely honed skills — which result in unusually fine statements in landscape excellence. Such results are the reason, time and time again, Elite wins top honors in landscape competition. In fact, such results are precisely why Elite is in business. Elite Landscaping is deeply committed to the aspiration of magnificence in every job taken on. With such an attitude every landscape task represents an artistic challenge and the pursuit of perfection ... one of the biggest reasons clients return year after year. Realistically

speaking, no one really needs landscaping, just as no one really needs a beautiful car or an exotic vacation. But, such things provide personal pride, a sense of achievement and real satisfaction. Long after the car has been sold and the vacation forgotten, the landscape investment lives on ... more precious and beautiful with time.

Through intelligent planning, your landscape dream can become a reality by phasing portions of a project over a few seasons. With Elite, such an approach avails the homeowner of an extraordinary landscape while working with a budget. By conducting an on-site consultation, Elite is able to understand the homeowner's wishes while contributing an innovative vision, a meeting from which designs may be prepared for the client's review and approval.

If you yearn for the pleasures of an outdoor paradise, call Elite. Incomparable in quality, inimitable in design — it is a company devoted to the exquisite.
